## EXPEDITION® STAR

### Hi-Power LED FLASHLIGHT

Building off the success of our acclaimed Expedition® series, the Expedition® Star uses the latest in LED technology. You now have a choice of 240 Lumens of blistering, solar-quality light output with an ultra-tight 6-degree beam pattern (This "spot" beam pattern enables the Expedition® Star to cut through fog and smoke), OR a 500-Lumen 15-degree medium beam to flood your dive with light. Burn time is 15+ hours at full power, with an additional 50 hours of usable light. Available in several different body colors. Includes, at no additional cost: a glare guard/candle stand and adjustable cushioned wrist lanyard.

**IMPROVED BRIGHTER!**

**MSRP \$64.95**

#### Specifications

- Depth Rating: 500 feet (150 m)
- Lamp: Hi-Power LED
- Lamp Life: 10,000+ hours
- Burn Time: 15+ hours at full power
- Power: 240 Lumens or 500 Lumens
- Batteries: 3- C-cell Alkaline (included)
- Materials: ABS and LEXAN®
- Dimensions: 7.75" (20 cm) L x 1.9" (5 cm) Dia.
- Weight: 0.69 lbs. (0.31 kg)
- U.S. Patent #6,168,288
- NATO Stock Number (NSN) 6230-01-521-3552 (Black Body)

## SEARAY™ SERIES

### Hi-Power LED Compact Dive Flashlights

Computer machined from a solid bar of Aluminum, SeaRay™ series flashlights are compact dive lights powered by an ultra-bright LED. These LED dive lights produce solar-quality white light. Specialized optics allow SeaRay™ series lights to cut through murky water with minimal backscatter. The 5,500 K color temperature of SeaRay™ series lights are solar-quality, allowing for accurate color rendition regardless of depth. These palm-size lights will easily fit into the smallest BC pocket. Includes, at no additional cost: a glare guard and adjustable cushioned wrist lanyard.

**ULTRA COMPACT!**

#### SeaRay™-12: 1,000 Lumens

- 10 degree spot beam
- Burn Time: 50 minutes

#### SeaRay™-4: 240 lumens

- 6 degree spot beam
- Burn Time: 2+ hours

#### Specifications

- Depth Rating: 500 feet (150 m)
- Lamp: Hi-Power LED
- Lamp Life: 10,000+ hours
- Batteries: 2- CR123 Lithium (included)
- Materials: Anodized Aluminum and LEXAN®
- Dimensions: 5" (12.7cm) L x 1.9" (5 cm) Head Dia., 1" (2.5 cm) Body Dia.
- Weight: 0.50 lbs. (0.23 kg)
- Individually serial numbered
- U.S. Patent #6,168,288

**MSRP: SeaRay-12 - \$249.95  
SeaRay-4 - \$249.95**

## TAC™ SERIES

### Hi-Power LED Compact Tactical Flashlights

Computer machined from solid Aluminum, TAC™ series compact tactical flashlights are designed for use with 1" weapon rail system clamps or as super-bright LED flashlights. Their single Hi-Power LEDs produce blistering brilliant white light. Specialized optics produce spot beam patterns with incredible beam throw that cut through fog and smoke with minimal backscatter. Their dual-action momentary tail switch eliminates cable switches that can tangle or fail; simply mount on fore stock and slide your hand forward slightly to lightly press on the tail for momentary use, or twist-on for constant use. O-ring seals make these lights waterproof (not for scuba use). Includes, at no additional cost, a glare shield.

**ULTRA COMPACT!**

#### TAC12L™: 1,000 lumens

- Burn Time: 50 minutes at full power

#### TAC4L™: 500 lumens

- Burn Time: 2+ hours at full power

#### Specifications

- Tactical push-button tail (momentary), twist-on tail for constant on
- Lamps: Hi-Power LED
- Lamp Life: 10,000+ hours
- Batteries: 2- CR123 Lithium (included)
- Head Dimensions: 5" (12.7cm) L x 1.9" (5 cm) Head Dia., 1" (2.5 cm) Body Dia.
- Weight: 0.50 lbs. (0.23 kg)
- Materials: Anodized Aluminum and LEXAN®
- Individually serial numbered
- U.S. Patent #6,168,288

**MSRP: TAC12L - \$249.95  
TAC4L - \$249.95**

## EXPEDITION® LS5

### 750+ Lumen Hi-Power LED Dive Light

Computer machined from a solid bar of Aluminum, the Expedition® LS5 provides amazing power for those needing extreme ruggedness in a C-cell size flashlight. (Excursion® LS5 Available in D-cell size) This LED flashlight utilizes the latest XML High-Power emitter and specialized optics to produce an ultra-tight 10-degree beam pattern, with light output equivalent to more than 150 regular LEDs. This "spot" beam pattern enables the Expedition® LS5 to cut through fog and smoke. Double O-ring seals give this waterproof light an underwater depth rating of 2,000 feet (615 m). Includes, at no additional charge: glare guard and cushioned wrist lanyard.

**IMPROVED BRIGHTER!**

#### Specifications

- Depth Rating: 2,000 feet (300 m)
- Lamp: Cree XML LED
- Lamp Life: 10,000 hours
- Run Time: 2.5+ hours
- Batteries: Expedition - 3 C cell Alkaline / Excursion - 3 D cell Alkaline
- Power: 750+ Lumens
- Materials: Anodized Aluminum & LEXAN®
- Dimensions: 7.75" x 1.9" (20 cm x 5 cm)
- Weight: 1.13 lbs. (0.51kg)
- Individually serial numbered
- U.S. Patent #6,168,288

**MSRP \$289.95**

## TREK™ PRO ALUMINUM

### Most Rugged AA Flashlight in the World!

Computer machined from a solid bar of Aluminum, the Trek™ Pro Aluminum is an extremely compact and versatile light that packs all the quality of our larger Aluminum lights. This Hi-Power LED light is the most rugged light of its size anywhere, and is a great toolbox, Emergency, or backpacking light. 3-AA batteries provide 20+ hours of light at full power with additional hours of usable light. Includes, at no additional cost: a rubber glare guard and adjustable cushioned wrist lanyard.

**IMPROVED  
BRIGHTER!**

#### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamps: Hi-Power LED
- Lamp Life: 10,000+ hours
- Burn Time: 20+ hours at full power
- Batteries: 3- AA Alkaline (included)
- Power: 250 Lumens
- Materials: Anodized Aluminum and LEXAN®
- Dimensions: 7.37" (19 cm) L x 1.25" (3 cm) Dia.
- Weight: 0.35 lbs. (0.16 kg)
- Individually serial numbered
- U.S. Patent #6,168,288

**MSRP \$169.95**

## TREK™ 4

### The Original LED Flashlight™

The perfect flashlight for emergencies and disaster preparedness. The Trek™ 4 produces more than 20 hours of light from 3-AA Alkaline batteries plus more than 80 additional hours of usable light, giving you all the light you'll need for short-range tasks.

This 4 LED waterproof, twist-on light will never need a bulb replacement since its LEDs are shock resistant and last 10,000+ hours. Double O-ring seals give this waterproof light an underwater depth rating of 1,000 feet (300 m).

Available in several different body colors. Includes, at no additional cost: a glare guard/candle stand and bungee wrist lanyard.

#### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamps: 4 LEDs
- Lamp Life: 10,000+ hours
- Burn Time: 20+ hours at full power
- Batteries: 3- AA Alkaline (included)
- Power: 38 Lumens
- Materials: ABS and LEXAN®
- Dimensions: 7.37" (19 cm) L x 1.25" (3 cm) Dia.
- Weight: 0.28 lbs. (0.13 kg)
- U.S. Patent #6,168,288
- NATO Stock Number (NSN): 6230-01-522-2506

**MSRP \$39.95**

## TREK™ LITHIUM

### The Ultimate Survival Light

The Trek™ Lithium survival light is designed for users who want the smallest possible light without sacrificing battery life. This ultra-light flashlight delivers an amazing 200+ hours of light at full power!

The Trek™ Lithium's special high-power lithium battery has a 10-year shelf life and will continue to provide power to -76°F—long after alkaline batteries fail at -4°F. Its extreme operating range and super-long battery life make this the perfect emergency or backpacking light. The Trek™ Lithium comes equipped with a custom magnifying lens. Available in several different body colors. Includes, at no additional cost: a glare guard and bungee wrist lanyard.

#### Specifications

- Lamp: 1 LED
- Lamp Life: 10,000+ hours
- Burn Time: 200+ hours at full power
- Battery: 1- 3.6 V Lithium (included)
- Power: 10 Lumens
- Materials: ABS and LEXAN®
- Dimensions: 3.5" (9 cm) L x 1.2" (3 cm) Dia.
- Weight: 0.19 lbs. (0.09 kg)
- U.S. Patent #6,168,288

**MSRP \$32.95**

## MINI-TREK™

### Compact LED Flashlight with Built-In Bite Tab & Clip

Designed for hands-free operation, the Mini-Trek™ features a bite tab and a strong clip to attach this light to hat brims, pockets, shirt cuffs or watchbands.

This extremely versatile LED flashlight is small enough to carry with you at all times and powerful enough for all your close-up work.

Powered by 3-AAA Alkaline batteries with a solo select white LED, the Mini-Trek™ operates for 20+ hours at full power with an additional 75 hours of usable light. Features an O-ring seal for water resistance (not for scuba use). Available in black or yellow body color. The Mini-Trek™ includes, at no additional cost, a rubber glare guard.

#### Specifications

- Lamp: 1 LED
- Lamp Life: 10,000+ hours
- Burn Time: 20+ hours at full power with 75+ hours of usable light
- Batteries: 3- AAA Alkaline (included)
- Power: 10 Lumens
- Materials: ABS and LEXAN®
- Dimensions: 4" (10 cm) L x 1.75" (4.5 cm) W
- Weight: 0.13 lbs. (0.06 kg)
- U.S. Patent #6,168,288 and #6,517,215

**MSRP \$32.95**

# LPR SERIES LED BULBS

## LED Replacement Bulbs

Our LPR-series, extra high-intensity LED conversion bulbs for flashlights, offer an easy way to convert many standard flashlights into extra high-intensity LED flashlights.

These new bulbs feature the latest advances in LED technology to deliver a bulb that lasts more than 300 times longer than standard Krypton, Xenon or Halogen bulbs while also providing greatly increased battery life and a higher-quality white light that allows you to see better at night.

In addition to providing long burn times and allowing you to see better, these new bulbs are also shockproof and vibration resistant. Since there is no filament to break or burn out, you will never be left without a working flashlight bulb again.

- **Save Money** – 2-5 times the battery life of incandescent and halogen bulbs
- **Never change bulbs again!**<sup>SM</sup> – Lasts more than 300 times longer than standard bulbs with a 10,000+ hour rated life
- **Impact Resistant** – No fragile filament or glass bulb to break
- **See Better** – Bright white light is similar to sunlight
- **Simple Installation** – Just drop-in the new bulb without disassembling the light or voiding the warranty
- **Protect the Environment** – Creates less solid waste by using fewer batteries and bulbs
- **70+ Lumens**

◆ **LPR-113**<sup>TM</sup> \* for 4-cell (6.0 V) flashlights

- **Replaces** – PR-13, KPR-13, KPR-113, XPR-113, HPR-50, HPR-54, Maglite® LWSA401 & LMSA401, Trek 400 Bulb, Tekna Lite 4 Bulb
- **NATO Stock Number (NSN):** 6240-01-522-4089

◆ **LPR-3**<sup>TM</sup> for 3-cell (4.5 V) flashlights

- **Replaces** – PR-3, KPR-3, KPR-103, XPR-3, X3B3A, Maglite® LWSA301 & LMSA301
- **NATO Stock Number (NSN):** 6240-01-522-4090

◆ **LPR-2**<sup>TM</sup> for 2-cell (3.0 V) flashlights

- **Replaces** – PR-2, RR-4, KPR-104, HPR-52, PR-6, XPR-2, X-2C, Maglite® LWSA201 & LMSA201
- **NATO Stock Number (NSN):** 6240-01-522-4092

See the difference - Try one today

\* The LPR-113 will not work with 6-volt lanterns that have a negative (-) center bulb contact.

\*\* Tektite is not affiliated with Mag Instrument, Inc., which owns the Maglite® trademark and the trademark shape, style and overall appearance of the Maglite® flashlights.

MSRP \$29.95

# LS SERIES LED BULBS

## Luxeon Star LED Replacement Bulbs

Our LS-series, extra high-intensity Luxeon LED conversion bulbs offer an easy way to convert flashlights and headlamps with screw-base bulbs into extra high-intensity LED lights.

- ◆ **LS233** for 2-cell (3.0 V) lights
- ◆ **LS365** for 3-cell (4.5 V) lights
- ◆ **LS407** for 4-cell (6.0 V) lights

These bulbs feature the latest advances in LED technology to deliver a bulb that lasts more than 300 times longer than standard Krypton, Xenon or Halogen bulbs while also providing greatly increased battery life and a higher-quality white light that allows you to see better at night.

In addition to providing long burn times and allowing you to see better, these new bulbs are also shockproof and vibration resistant. Since there is no filament to break or burn out, you will never be left without a working flashlight bulb again.

- **Save Money** – 2-5 times the battery life of incandescent and halogen bulbs
- **Never change bulbs again!**<sup>SM</sup> – Lasts more than 300 times longer than standard bulbs with a 10,000+ hour rated life
- **Impact Resistant** – No fragile filament or glass bulb to break
- **See Better** – Bright white light is similar to sunlight
- **Simple Installation** – Just drop-in the new bulb without disassembling the light or voiding the warranty
- **Protect the Environment** – Creates less solid waste by using fewer batteries and bulbs
- **Replaces** – E10 (Edison Miniature Screw, 10 mm) screw-base bulbs in flashlights with reflectors. Use our L-222 bulb in penlights without reflectors.

\* The LT-1 and LT-3 are polarized. If it does not light in your flashlight: pull it out, rotate 180° (so that the pins are in the opposite holes) and reinsert the bulb.

\*\* Tektite is not affiliated with Mag Instrument, Inc., which owns the Mini Maglite®, Maglite® and Solitaire® trademarks and the trademark shape, style and overall appearance of the Mini Maglite®, Maglite® and Solitaire® flashlights.

**NEW!**

## STROBE 4500™

High Intensity, Dual 13-Watt LED Strobe

The Tektite® Strobe 4500™ is the latest edition of our durable, polymer high-end strobes. This new Strobe is significantly brighter than our Strobe 3500™. The Strobe 4500™ uses dual, high-intensity LEDs and circuitry that can be seen for miles at night (conditions permitting with a clear lens). The Strobe 4500™ is double O-ring sealed, waterproof and dive rated to 500 feet (150 m). Available with your choice of several lens and body colors. Includes, at no additional cost, a Velcro strap.

### Specifications

- Depth Rating: 500 feet (150 m),
- Lamp: Dual, High-Intensity white LED Strobe
- Lamp Life: 10,000+ Hours (36+ million flashes)
- Burn Time: 60+ hours, with fresh batteries
- Initial Flash Rate: 120 flashes per minute (2 Hz) with fresh batteries
- Batteries: 3- C-cell Alkaline (included)
- Materials: ABS and LEXAN®
- Weight: 12 oz. (340 kg)
- Dimensions: 9.25" (23 cm) L x 1.9" (5 cm) Dia.

**MSRP \$99.95**

**IMPROVED!**

## STROBE 3500™

High-Intensity, Multifunction, 10-Watt LED Strobe

The Tektite® Strobe 3500™ is the durable, polymer version of our popular Strobe 3500™ XL Expedition. Boasting significantly brighter output as well as better battery life than our Strobe 200™, the Strobe 3500™ uses a high-intensity, Multifunction, LED strobe that can be seen for miles at night (conditions permitting with a clear lens). This multifunction strobe features two modes: flashing or steady. Use steady mode as a backup light or area light. The Strobe 3500 is double O-ring sealed, waterproof and dive rated to 500 feet (150 m). Available with your choice of several lens and body colors. Includes, at no additional cost, a Velcro strap. An Infrared (IR) version is available to approved government and military organizations.

### Specifications

- Depth Rating: 500 feet (150 m)
- Lamp: High-Intensity, Multifunction, LED Strobe
- Lamp Life: 10,000+ Hours (36+ million flashes)
- Burn Time: 100 hours in flashing mode or 20 hours in steady mode
- Initial Flash Rate: 120 flashes per minute (2 Hz) with fresh batteries
- Batteries: 3- C-cell Alkaline (included)
- Materials: ABS and LEXAN®
- Weight: 0.75 lbs. (0.34 kg)
- Dimensions: 9.25" (23 cm) L x 1.9" (5 cm) Dia.

**MSRP \$89.95**

## SOS Distress Light

Marine Distress Signal Kit

### NO MORE FLARES!

Complete compliance kit! Fulfills USCG Night, Day, and audible distress signal requirements. Batteries included! The alternative to Pyrotechnic Flares, the wildly successful model C-1001. Can be hand-held, hoisted aloft, tethered to a life ring, or thrown in the water to mark overboard crew. Our optical design provides an omnidirectional light display for surface rescue craft and a vertical beam visible to aircraft flying overhead. It is visible up to 10 nautical miles, and the SOS C-1003's beam lasts for hours compared to the minutes-long lifespan of traditional pyrotechnic distress flares. Powered by a high-performance, programmable micro-processor controlling an SOS flash pattern signal. Fulfills carriage of all Coast Guard Compliant Visual Distress Signal (VDS) requirements (46 CFR 175.130) for recreational marine vessels 16 FT AND OVER signals when combined with our included Distress Flag. A quality Marine whistle is included to fulfill USCG audible signal requirements. Includes NEW PHONE APP (with Registration). New Boating APP- File float plan, send phone and text messages to your notify list, and more...Just register your light. Meets COLREGS Annex IV, Distress Signals, 1:d-SOS signal; for international use.

The app is compatible with Android 5.0 and up or iOS 13.0 and up.

### Specifications:

- Flashes USCG spec SOS signal for up to 60 hours
- Requires 3-C alkaline batteries — INCLUDED!
- Includes new boating safety App (with registration)
- 4.5" x 4.5" x 8.5" (Height)
- Weight with batteries: 0.8 lbs. (0.36kg)
- Proudly made in the USA.(complies with the "Buy American Act" – may contain imported components)
- US Patent #9682754

**MSRP \$89.95**

## STROBE 3500™ XL EXPEDITION

Aluminum, Multifunction, LED Strobe

For many years, Tektite strobes have been renowned for their performance and ruggedness. Our Strobe 3500 XL Expedition sets the bar beyond any other strobe. Designed for the rigors of commercial and scientific diving use. This strobe has superior brightness to our Strobe 300™. The battery housing is computer machined from a solid bar of aircraft aluminum and features a multifunction, LED lamp which makes this strobe the MOST RUGGED and shock resistant of any strobe we build, or anyone else makes! This multifunction strobe features two modes: flashing or steady. Use steady mode as a backup light or area light. Double O-ring sealed, the Strobe 3500 XL will run for 100 hours in flashing mode or 20 hours in steady mode on a fresh set of batteries at an initial flash rate of 120 flashes per minute. Optional lens colors are available. Includes, at no additional cost, an adjustable cushioned wrist lanyard. An Infrared (IR) version is available to approved government and military organizations.

### Specifications

- Depth Rating: 2,000 feet (610 m)
- Lamp: High-Intensity, Multifunction, LED Strobe
- Burn Time: 100 hours in flashing mode or 20 hours in steady mode
- Lamp Life: 10,000+ Hours (36+ million flashes)
- Batteries: 3- C-cell Alkaline (included)
- Materials: Anodized Aluminum and LEXAN®
- Weight: 1.2 lbs. (0.51 kg)
- Dimensions: 9.25" (18 cm) L x 1.9" (5 cm) Dia.

**MSRP \$299.00**

**IMPROVED!**

## STROBE 200™

**The Best Strobe Anywhere, Now LED!**

Our most popular strobe now features an LED strobe module. Used by scuba divers, military, and fire fighters worldwide. The civilian version of our covert ops military strobe, our STROBE 200™ LED strobe features improved flash rate, lamp life, and durability compared to the previous Xenon version as well as competing Xenon strobes. This double O-ring sealed, waterproof unit will run 30+ hours on a set of fresh batteries (included), is dive rated to 500 feet (150 m), and can be seen for miles at night (conditions permitting with a clear lens). Since it uses a high-intensity LED strobe module there are no fragile glass tubes to break. Available with your choice of several lens and body colors. Includes, at no additional cost, a Velcro strap. An Infrared (IR) version is available to approved government and military organizations.

### Specifications

- Depth Rating: 500 feet (150 m)
- Bulb: High-Intensity LED strobe
- Bulb Life: 10,000+ hours (36+ Million flashes)
- Burn Time: 30+ hours
- Batteries: 2- C-cell Alkaline (included)
- Materials: ABS and LEXAN®
- Weight: 0.75 lbs. (0.34 kg)
- Dimensions: 7.25" (18 cm) L x 1.9" (5 cm) Dia.
- Initial Flash Rate: 120 flashes per minute (2 Hz) with fresh batteries
- NATO Stock Number (NSN): 6230-01-524-9267 (Infrared version)

**MSRP \$79.95**

## M3 STROBE™

**High-Intensity, LED Strobe**

The Tektite® M3 Strobe takes the best aspects of our Mark III™ series and Strobe 3500™ to create a thin, rugged, powerful LED strobe. Its high-intensity, LED strobe produces comparable light output to larger Xenon strobes without a fragile glass strobe tube to break. This multifunction strobe features two modes: flashing or steady. Use steady mode as a backup light or area light. The M3 Strobe is crafted from durable ABS and LEXAN®, is double O-ring sealed, waterproof, and has a depth rating of 1,000 feet (333 m). It will run for over 100+ hours in flashing mode on a fresh set of 3 AA-size Alkaline batteries and has a lamp life of 10,000+ hours. Available with your choice of several lens and body colors. Lens color is permanent. Includes, at no additional charge, a Velcro strap.

### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamp: High-Intensity, LED strobe
- Lamp Life: 10,000+ Hours
- Burn Time: 100+ hours in flashing mode or 20 hours in steady mode
- Flash rate 2hz. (120/min)
- Batteries: 3- AA Alkaline (included)
- Materials: ABS and LEXAN®
- Dimensions: 9.75" (25 cm) L x 1.2" (3 cm) Dia.
- Weight: 0.50 lbs. (0.23 kg)

**MSRP \$79.95**

## MARK III™ STROBE

**Solid-State LED Strobe**

The Mark III™ Strobe (formerly the Strobe 30) features solid-state strobe technology. Its white LED flashes for 300+ hours on a fresh set of 3-AA Alkaline batteries. In addition, the lamp is rated for more than 10,000 hours. This double O-ring sealed strobe is completely waterproof and dive rated to 1,000 feet (300 m). Available with your choice of several lens and body colors. Lens color is permanent. Includes, at no additional cost, a Velcro strap.

### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamps: LED Strobe
- Lamp Life: 10,000+ hours
- Burn Time: 300+ hours
- Flash rate 2hz. (120/min)
- Batteries: 3- AA Alkaline (included)
- Materials: ABS and LEXAN®
- Dimensions: 9.75" (25 cm) L x 1.2" (3 cm) Dia.
- Weight: 0.48 lbs. (0.22 kg)
- U.S. patent #6,168,288

**MSRP \$59.95**

## MARK III™

**The Chemical Lightstick Alternative®**

The brightest marker light available. Uses your choice of 2, or 4 LEDs that provide up to 200 hours of light (depending on LED array). The Mark III™ is for use in situations where higher ambient light requires a high-intensity light. The Mark III™ is also well suited for use as a traffic marshaling wand or area light. This double O-ring sealed marker light is completely waterproof and dive rated to 1,000 feet (300 m). Available with your choice of several lens and body colors. Includes, at no additional cost, a bungee lanyard.

### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamp: 2, or 4 LEDs
- Lamp Life: 10,000+ hours
- Burn Time: 100+, or 50+ hours
- Flash rate 2hz. (120/min)
- Batteries: 3- AA Alkaline (included)
- Materials: ABS and LEXAN®
- Dimensions: 9.75" (25 cm) L x 1.2" (3 cm) Dia.
- Weight: 0.48 lbs. (0.22 kg)
- U.S. patent #6,168,288

**MSRP \$27.95 - 2 LED  
\$33.95 - 4 LED**

## MARK-LITE® LED

### The Chemical Lightstick Alternative®

Tired of throwing away chemical light sticks after every use? Our Mark-Lite® LED is the 21st Century version of *The Original* battery operated submersible marker light. Use one in the dark in place of a chemical lightstick while scuba diving, camping, jogging and biking. Every Mark-Lite® LED features a reliable, twist-on switch and uses a 3.6v Lithium battery that lasts for 200 hours—with an operating cost of less than 3 cents per hour. Save money while helping keep our environment and oceans clean. Available with your choice of several lens and body colors. Includes, at no additional cost, a bungee lanyard.

#### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamp: 1 LED
- Lamp Life: 10,000+ hours
- Burn Time: 200+ hours at full power
- Battery: 1-3.6v AA Lithium (included)
- Power: 8 Lumens
- Materials: ABS and LEXAN®
- Dimensions: 5.75" (15 cm) L x 1.2" (3 cm) Dia.
- Weight: 0.11 lbs. (0.05 kg), negatively buoyant
- U.S. Patent #6,168,288

**MSRP \$26.95**

## MARK-LITE® FIRE FLY™

### The Chemical Lightstick Alternative®

The latest development in sub-miniature LED technology makes the Mark-Lite® Fire Fly™ possible. Its five eye-catching red LEDs operate for an incredible 100 hours on a single set of 2-N-size Alkaline batteries—with an operating cost of about 3 cents per hour. The Mark-Lite® Fire Fly™ is the perfect marker light for people active in the dark. Use one for night scuba diving, or while biking, jogging or walking. Available in several different body colors. Includes, at no additional cost, a Velcro strap.

#### Specifications

- Depth Rating: 1,000 feet (300 m)
- Lamps: 5 Red LEDs
- Lamp Life: 10,000+ hours
- Burn Time: 100+ hours
- Batteries: 2- N size Alkaline (included)
- Materials: ABS and LEXAN®
- Dimensions: 5.75" (15 cm) L x 1.2" (3 cm) Dia.
- Weight: 0.38 lbs. (0.17 kg)
- U.S. Patent #6,168,288

**MSRP \$26.95**

- 11" (28 cm) L x 3" (8 cm) W x 1.2" (3 cm) H
- U.S. patent #6,168,288

MSRP \$79.95

Made in the U.S.A.  
(complies with the "Buy American Act", may contain imported components).

# TEKNA® MasterClip™

## As used by The U.S. Navy Seals

*Just squeeze and pull!*

Operates with a quick off linear motion. This special design allows this clip to be operated with one hand under heavy loads. You don't need to remove the tension/weight on the anchor point.

- Many different attachments can go on the loop.
- Made of non-magnetic 304 Stainless Steel.
- The MasterClip's very low magnetic signature allows it to be used by The U.S. Navy Seals worldwide on their Tac/Navigation Board.
- Popular with Scuba Divers and anyone who needs a Clip to secure your stuff!
- As designed by Christian StClaire.

MSRP \$22.95

TEKNA®

Lights and Strobes  
are

MADE IN THE  
**USA**

We're committed to keeping jobs in America. Unlike many other manufacturers, Tektite brand Lights are made in America, not just "Designed in the U.S.A." or assembled in the U.S. from foreign-made parts. We mold our plastic parts, assemble our electronics, machine and stamp our metal parts in our New Jersey factory or locally. We include U.S.-made batteries whenever possible (bulbs come from overseas). Whenever possible we buy U.S. made machine tools and equipment for our factory, and we only buy trucks from U.S. manufacturers.

All our products are European Union Compliant.

## TEKNA® LITE 6™

### Hi-Power LED Flashlight that Floats!

The TEKNA® Lite 6™ harnesses the power of large lanterns in a pocket-sized housing and is light enough to float. Weighing in under half a pound and boasting 240 lumens, the Lite 6™ gives you more light than lanterns five times as large and heavy. This twist-on LED flashlight produces more than 3 hours of light from two CR123 Lithium cell batteries and will never need a bulb replacement since its LED is shock resistant and lasts 10,000+ hours. Its specialized optics produce an ultra-tight 6-degree "spot" beam pattern that cuts through fog and smoke. Double O-ring seals give this waterproof light an underwater depth rating of 500 feet (150 m). Available in black, yellow and Orange body color.

#### Specifications

- Depth Rating: 500 feet (150 m)
- Lamp: Hi-Power LED
- Lamp Life: 10,000+ hours
- Burn Time: 3+ hours
- Power: 240 Lumens
- Batteries: 2-CR123 (3V) Lithium (included)
- Materials: ABS and LEXAN®
- Dimensions: 5.75" L x 1.9" (5 cm) Dia.

## TEKNA® LITE 3™

### Hi-Power LED Flashlight

A rugged flashlight suited for everywhere from the outdoors to your home or vehicle. The TEKNA® Lite 3™ sports a single Hi-Power LED that boasts 250 lumens of power; plenty to illuminate your surroundings for short-range tasks. The Lite 3 will last for 20 hours at full power with many hours of additional, usable light with a fresh set of 3-AA Alkaline batteries. This waterproof, twist-on light will never need a bulb replacement since its LED is shock resistant and lasts 10,000+ hours. Double O-ring seals give the Lite 3 an underwater depth rating of 1,000 feet (300 m). Available in black or yellow body color. Includes, at no additional cost: a glare guard/candle stand and bungee wrist lanyard.

IMPROVED BRIGHTER!

TEKNA®

# TEKNA® EXEC™

## Hi-Power LED Compact Tactical Light

At only 3.5" overall length, this tactical-power light is small enough to hold in the palm of your hand. Computer machined from a solid bar of Aluminum, the TEKNA® Exec™ is designed for use with 1" weapon rail clamps or as a compact super-bright LED flashlight. The brilliant LED provides 90 lumens of power in a narrow beam to light your target. Specialized 6 degree optics produce a narrow spot beam that cuts through fog and smoke with minimal backscatter. It features a dual-action momentary tail switch; lightly press on the tail for momentary use or twist-on for constant use. One CR123 Lithium battery provides power to the TEKNA® Exec™. O-ring seals make this light waterproof (not for scuba use).

**ULTRA

# TEKNA® KNIFELITE™

## The Essential 3-in-1 LED Keychain Tool

The TEKNA® Knifelite™ is the essential key chain tool. This three-in-one instrument features a knife blade with a screwdriver tip and an LED light. The blade is 1.25" long (3.2 cm) 420 Stainless Steel, sharpens easily and is beefy enough to sharpen a stick with all the force you can muster. The single LED will last for one or two years of average use with the replaceable batteries, with a switch that can be locked on or pressed for momentary light. It's hard to imagine something so small can do so much, but it does – we made sure of it. Comes with a key ring and snap hook so you can carry this light with you at all times.

**MSRP \$16.95**

# Exact Wrench

## Patented Thin Jaw Adjustable Wrench

Not just any Adjustable Wrench. Raved about by anyone who uses one! Spring-Loaded Jaws means no need to constantly reset (loosen/tighten) the jaws each time you turn it. Once you set the jaws, it works just like a box wrench. Thin, pointed, deep-reach jaws allow access into those really tight spaces. The BEST regulator wrench. Works great for hydraulic hoses and air lines too. Angled-Jaw model excels at back-to-back wrench applications.

### Three Models:

- Straight Jaw
- Angled Jaw - 20 deg.
- Compact Angled Jaw, 7/8" opening, 6.75 L

### Specifications

- Chrome-Vanadium Steel, Black Phosphate coating
- Backlashless knurl. Set it and forget it.
- Inch marking scale on jaws.
- 1" (25.4mm) jaw capacity (Full Size)
- Overall length - 8.5" (215mm) (Full Size)
- Jaws - 4.5mm thick
- Made in Japan
- Patented

**MSRP \$59.95**
